

Task: Team Web Page**Due: See Web Page****Task Purpose: Getting started on team web pages.**

As has been mentioned in class, space has been set up for team web sites. It will be the responsibility of each team to create and maintain a web site for Senior Design. This site will be the permanent archival storage for your project.

To encourage you to get started, I have created this task and assigned a due date. By having each team complete this task, we can verify that the space is properly set up and can be accessed by the teams.

Task:

Create a base web site page that includes the team name, a brief description of the project, and a picture of the team.

Put your proposal document and presentation, and also a copy of your submission to the Gigot Center Ideas contest on your web site with appropriate links.

Please include a link back to the senior design 2008-2009 page on your pages.
