

Team Leader: Mark Wurzelbacher

Secretary: Tom Blanford

Unresolved Items from Previous Meeting:

- Integrate ADC and DSP

Current Items:

1. Battery/Charging circuitry
  - a. Explain battery decision and justification
  - b. Discuss if we need to worry about >18v spikes from wall wart
  - c. Discuss soldering battery directly to board
2. ADC
  - a. Current ADC progress
  - b. Output DSP clock - multiply BCLK to get MCLK
  - c. Dirty data from ADC - check with Analog
3. User Interface
  - a. How to switch VDD and music with same switch
