

Action Items—This week

- a. Balancing circuitry almost complete
 - Missing a few sets, and one set blew up
- b. Locating the Hot
 - Opened up the panel – lots of wires
- c. Charging circuitry complete
 - Initial testing used regular 2:1 transformer
 - Modified transformer into 3:2 autotransformer (not tested yet)
- d. Current sensors (Bill and Matt update)
- e. GPS (Anne update)
- f. Ultra-capacitor boxes (Anne update)

Action Items—Open

- a. Circuit board design
- b. SD card interface with GPS
- c. 70-amp fuse
- d. Hot wire connection
- e. Low-Level Design
- f. Demo on all items going onto a circuit board
