Team America
3/8/2011
Leader: Billy Parker
Minutes: George Warner

Agenda #7

1. Subsytem Testing I
   a. Meet in B7 of Fitzpatrick to demonstrate our midterm subsystem
      i. Show that we can turn generator on and off with microcontroller
      ii. Display actions and converted analog to digital value on LCD
      iii. Use ultracap voltages to tell microcontroller to turn on/off generator
2. SD Card
   a. How often to write to card
   b. Card needs minimum 512 bytes every time the write command is executed
3. Current Sensors
   a. Discuss Reference Voltage V_{ref}
