Meeting Minutes

Team Baja

18 February 2014

- GPS
  - o Got messages sending to the terminal
  - o Plan to take it outside to get 3D fix this coming week
    - Can't find satellite fix indoors at the moment
  - o Still attempting to get GPS chip into binary mode
    - Prof. Schafer will check resources on how to put chip into binary mode
  - o Looking into sending data to SD card

- Screen
  - o Sample codes placed into box folder for use
    - Examine sample code and attempt to run/alter it

- Sensor
  - o Designed a prototype circuit for testing
    - Transistors, LED, breadboard placed in kit
  - o For future, look into sensing engine RPM with wire coil around spark plug
