

Wizard's Chess Meeting 4

2/12/2020

Minutes

8:30-8:41

- Shae -- Update on slider development
 - New design ready, needs printed (potentially today)
 - Chess pieces presented
- Delany -- Update on electromagnet mechanism
 - Electromagnet and metal disks arrive tomorrow
 - Starting to program travel
- Luke -- Update Motor controls
 - Microphone has arrived, has begun to investigate functions to read out signal and transfer to the Raspberry Pi
- Fabio -- Update on Code
 - Some complications with identifying duplicate pieces
 - Recommends stating a starting position then the move to position
 - Working on combining the libraries
 - Think of a state machine when doing software
- Ben -- Update
 - Has been working with Luke and Fabio on various software development and progress

8:42-8:46

- Suggestion for display/encasement of the core xy?
 - Easy access so we can remove top to see the core xy
- Planning/Scheduling to work on printing parts and current tasks
 - Printer assignment for 9:30 this morning
