Completed:
- Finished Casing Design
- 3 Board Designs Completed
- Auto-table

Planning/To-Do:
- Demo- multiple potted plants possibly at different locations
- Put a Delay right after the Serial.Begin()
- Can possibly make our own IP Address
- Can use Putty as a potential serial monitor to see stuff

Final Report/Demo:
- Template for Final Report on Canvas
- Poster Due with Report- will need to order in advance
- Bulk of documentation goes up on the webpage before demo day (Thursday, April 28)
