

Agenda

- Fill in whole team on updates
- BFIC setup?
- Schedule cable training, figure out who's doing it
- What would be the pros of doing an op amp at the output of the power detector?
- Do you have anything else we need to talk about?

Notes

- In the lab
 - LNAs on a reel
 - Chips flat packed
 - Eval board MIGHT COME TODAY???????
- Eval board
 - 9 ports: 8 channels + 1
 - Plan A :)
 - GUI
- Renesas Beamforming Software
- Power Tracking
 - What should we track?
 - Alternative to chip: monitor current on capacitors
 - We could track each subsystem - beamformer
- Power sense resistors in series w power rail, measure voltage drop & use ADC on ESP
 - 2mOhm +/- 1%
